LinkedIn: linkedin.com/in/prathamesh-pendkar | GitHub: github.com/Prathameshpendkar2005

PROFESSIONAL SUMMARY

Cybersecurity professional with expertise in penetration testing, vulnerability assessment, and cloud security. Proven track

EDUCATION

Bachelor of Technology in Computer Science & Engineering

Symbiosis Skills & Professional University, Pune | CGPA: 8.9/10 | Expected 2026

PROFESSIONAL EXPERIENCE

Cybersecurity Intern | Imperative (Cyber Secured India)

August 2025 - November 2025
- SOC/NOC Lab Deployment: Built modular ELK + Wazuh + Zabbix stack using Docker with static IPs
- Health Check Automation: Scripted health checks for Elasticsearch, Kibana, Fleet Server, and Zabbix agents
- Remote Infrastructure: Validated uptime across Docker containers, connected to Thane office via VPN

Security Analyst Intern | Bloggerscon Vision Pvt. Ltd

February 2025 - August 2025
- Found 5-8 bugs: XSS, IDOR, CSRF, Open Redirect
- Recon Automation: 40% speed improvement
- Subdomain Enumeration: 500+ endpoints
- Delivered 20+ PoC reports with VRT mapping

Cybersecurity Intern | Hacktify Cyber Security

February 2025 - March 2025
- Bug Bounty VAPT: Found 5-7 web app vulnerabilities (XSS, SQLi, IDOR, CSRF, Broken Auth)
- Hacktify CTF: Solved 5 exploitation challenges, simulating real-world bounty tasks

Digital Forensics Intern | Cybersecurity Corporation

June 2024 - August 2024
- Forensics: 10+ disk imaging cases with Autopsy
- Incident Response: 5+ investigations supported
- TSCM: 35% detection accuracy improvement
- Reporting: 25% faster incident resolution

Vulnerability Management Analyst | ARAPL, Pune

June 2023 - August 2023
- Lab Setup: Simulated 5 vulnerabilities using DVWA, Juice Shop, WebGoat
- Vulnerability Scanning: Detected 30+ issues with OWASP ZAP
- Reporting: Improved dev patch adoption by 20%

TECHNICAL SKILLS

Cloud Security: AWS, EC2, S3, VPC, IAM, Azure, GCP, CloudFront, WAF
VAPT Tools: Nmap, Naabu, Burp Suite, OWASP ZAP, SQLMap, Nikto, Kali Linux, Metasploit
SOC/SIEM: Elasticsearch, Logstash, Kibana, Wazuh, Microsoft Sentinel, Zabbix, Prometheus, Splunk, Grafana
DevOps & Automation: Docker, Kubernetes, Python, Bash, Git, Terraform, Ansible, Infrastructure as Code

CERTIFICATIONS

- AWS Cloud Certification - SevenMentor (September 2025)
- Digital Forensics Essentials (DFE) - EC-Council (March 2023)
- CompTIA PenTest+ - Udemy (In Progress)
